INTRO

Hello, I'm Drew Massa, an aspiring IT professional with a passion for technology. My interest in IT kicked off when I was purchasing my first computer. I didn't have much knowledge about computers, such as CPUs and operating systems, so I started digging into what all of the computer specifications meant. That initial research sparked my ongoing curiosity and led me into the world of computers. Having explored other fields, I felt like I finally found my passion. The constant evolution and life-learning nature of technology and IT is exciting to me. I have a strong passion for learning, and I am eager to contribute my skills and passion to your organization. Thank you for taking the time to view my resume. I look forward to the opportunity to connect and discuss how we can grow together.
